## How to avoid unsorted load fees (\$275.00/tonne) and per item fees (\$50 or more/item) on banned items:

1. **Sort waste.** Waste must be separated into the categories below for special burial, composting, or recycling at the Waste Management Facility. The items below **do not** go in your general waste or garbage.

### Waste Sorting Categories:

- Cardboard: clean and wax free.
- Bulky items: including bed springs, mattresses, wooden furniture, and wooden fencing.
- Clean wood waste: including unpainted pallets and wood without treatment, stain, paint, or glue.
- Compostable waste a.k.a Organics: including all food waste, food scraps, food soiled paper, and bones.
- Construction and demolition waste: Including gyproc, treated wood, planking, siding, plastic, fiberglass fixtures, carpet, underlay, cupboards, counter tops, sinks, toilets, and more.
- Large scrap metals: including filing cabinets, hot water tanks, metal roofing, metal fencing, metal desks and furniture, metal wiring, propane tanks with valves removed, purged fuel tanks cut in half, cleaned and purged barrels with lids removed, sheet iron, and vehicle parts without fluids.
- Fridges, freezers, air conditioners.
- White goods: dishwashers, stoves, ovens, laundry machines.
- Uncontaminated soil.
- Grubbing material: including roots, stumps, and branches greater than 1.5cm in diameter.
- Manure, kennel material, excreta, and fish processing material.
- Asbestos and cold incinerator ash.
- Animal parts and carcasses, but not slaughter waste.
- Tires with a rim diameter of 39 inches or less, with rims removed, may be deposited for free if separated. Larger tires are subject to a fee.

2. **Remove banned items from waste.** These items are not accepted at the Waste Management Facility and require alternative disposal.

Banned Items:

- Electronic and electrical waste, including corded and cordless items. These items may be recycled for free at the Raven Recycling E-waste Collection Depot. Visit [ravenrecycling.org/e-waste](http://ravenrecycling.org/e-waste) for more information.
- Hazardous waste from Commercial/ business sector. Go to [whitehorse.ca/HHW](http://whitehorse.ca/HHW) for disposal options.
- Bio-medical waste, including dressings, bandages or other infected material and hypodermic needles.
- Slaughter waste.
- Highly combustible and explosive material including ammunition, celluloid cuttings and cellulose film, chemicals, oil or gasoline soaked material, propane tanks with the valve on, unpurged fuel tanks.
- Liquid waste, including sewage or sludge, septic tank pumpings, and sump waste.
- 45 gallon drums not purged or with lids on.
- Radioactive waste.
- Waste from international air travel.
- Contaminated soil.
- Vehicles, including all-terrain vehicles and snowmobiles.
- Incinerator waste that is special waste.
- Tires with a rim diameter above 39 inches.

3. **Lock your bin.**

Prevent illegal dumping by locking your bin. Gravity locks allow you to secure your bin without having to unlock for the waste hauler. Find out more about gravity locks at [Whitehorse.ca/wastelocks](http://Whitehorse.ca/wastelocks).
