<b>Dock Dimensions</b>			
<b>Current:</b>	Width:	Length:	Area (not including ramp):
<b>Modifications:</b> If you plan to modify the dimensions of your dock within the duration of this permit, describe how and submit a site sketch indicating current and proposed dimensions (see <i>Schwatka Lake Dock Policy</i> for development restrictions and requirements).	Width:	Length:	Area (not including ramp):
	Description of modifications:		
<b>Dock Storage Plan</b>			
If you plan to remove your dock(s) from the lake for any duration of this permit, please describe your storage plan. Docks must be stored in a manner that does not obstruct access to other dock sites.		Description of storage (location and duration):	
<b>Spill Kit Requirement</b>			
Permit holders are required to have a spill kit on-site when handling and transporting fuel and other hazardous substances. The kit must be equipped to respond to the maximum spill potential of the operation, on-land and water. Duties to mitigate and report spills are stated in the <i>Yukon Environment Act</i> .			<input type="checkbox"/> I agree to meet this condition
<b>Site Inspection Requirement</b>			
Permit holders are required to regularly inspect their dock(s) and perform routine maintenance to ensure compliance with the development standards specified in the <i>Schwatka Lake Dock Policy</i> . Sites are to be kept free of litter, debris, tires, drums, and other waste; this applies to on-land areas (including around sheds), docks, and the lake bed.			<input type="checkbox"/> I agree to meet this condition
<b>Authorization</b>			
I hereby certify that I am the primary owner of the dock and registered float plane indicated on this form and in the attached information, and hereby make application for a Dock Development Permit, subject to the provisions of the City of Whitehorse <i>Zoning Bylaw</i> and <i>Schwatka Lake Dock Policy</i> .
