

Please do not smoke and avoid wearing scented personal care products when you come to the City of Whitehorse Facilities. Why? We all breathe the same air.

The City of Whitehorse is committed to providing a safe and healthy environment.

Smoking is prohibited at all City of Whitehorse Facilities and smokers are asked not to light up within 5 meters from any entrance.

Fragrances can trigger asthma attacks, allergies and other medical conditions, so the City of Whitehorse asks people to avoid wearing scented personal care products in the City Facilities.

Thank you for your cooperation.
We all share the air.

Sincerely,

City of Whitehorse

Thanks to Dalhousie University for the use of their logo.
