

NORTHERN ELITE SPY TASKFORCE

Good day Recruits,

Now that you are an Agent, it's time to start practicing some skills. Your mission is to construct a laser field as shown in Agent Gold Leader's video transmission. Another assignment you have today is to construct a secret lair to use as a home base. Your home base can be used to conduct all your spy operations. Use pillows, blankets, cardboard, and anything else you can find in your home. You can even set up your laser field at the entrance of the base to make infiltration more difficult. Stay tuned for your next mission.

Good Luck Recruits,
