

NORTHERN ELITE SPY TASKFORCE

Recruits!

This mission is top priority! Agent Red October has sent us the coordinates to Dr Vespuchi's evil lair. But he has decoded the message and we cannot figure out how to solve the cypher. Your mission is to decode Agent Red October's secret cypher. First you must figure out what Key Character to use to solve the cypher. We believe there may be a clue hidden in Agent Red October's Recruitment Letter. When you figure out what key character to use, solve the cypher and send the results to Agent Gold Leader. With the coordinates, we can send agents to Dr. Vespuchi's lair and stop his evil plans!

Good Luck Recruits,
