**1. Please clarify the rationale for moving 2018 budget to 2017 for the carts?**

The funds are being advanced as the City is out of residential size carts and we are trying to get the best deal we can on a small order.

Combining funds into one order is more cost effective and allows for more carts for the same cost. Two separate purchase orders of \$15,000 would reduce the total amount of carts we would receive and would not be cost effective.
