Plot Ornament Information

At the time of interment, flowers and wreaths, adornments, standards, plants, artificial or otherwise may be placed on a plot but may be removed by staff when their condition is deemed to be detrimental to the general appearance of the Cemetery.

For the safety of maintenance staff and public, all breakable containers (glass, pottery and plastic) will be removed 30 days after an interment. In addition, ornament removal and disposal will be done bi-annually the first 2 weeks of May and last 2 weeks of September.

For the sake of environmental responsibility, the City encourages the use of natural flowers to reduce the volume of waste going to the landfill.
