

COUNCIL QUESTIONS & ANSWERS

Meeting date: May 10th

1. Is there Government of Yukon or Canadian Northern Economic Development Agency (CANNOR) funding available to cover the cost of pop-up patios on roadways?

The City of Whitehorse and CanNor staff are currently discussing options for a potential program to cover part of the pop-up patio construction costs. CanNor is interested in working with a local partner to provide support to the food and beverage industry by delivering special COVID-19 funding through the Regional Relief and Recovery Fund (RRRF). Conditional on securing a local partnership with a non-for-profit organization or other agency, a program would be created and could cover between 50-80 per cent of applicants' costs. CanNor will need to identify and establish a local partnership to process applications and distribute the funds. There are no Yukon Government funding programs available to support the patio initiative.
