These items belong in your green cart or green bin:

- All food waste and food scraps
- Yard waste, grass clippings, leaves, cut plants, twigs, sawdust, wood shavings
- Food-soiled paper – coffee filters, napkins, tea bags, brown paper, paper towel, tissue
- Shells, bones, and meat
- Compostable dishware & bags

Did you know...

when organic material decomposes in our landfill, it produces methane, a greenhouse gas that’s 25 times more damaging than carbon dioxide.

Organic separation is the answer!
Use your Green Cart every day to capture all your food, yard and garden waste. We’ll take it and make compost; a rich garden booster.

Get the dirt on organic separation.
Grow a greener tomorrow.

Is it compostable?
Look for the logo! It’s on the packaging or product itself. These logos guarantee the item is compostable.
