

# COUNCIL QUESTIONS & ANSWERS

Meeting date: September 12, 2022

## 1. Question

**What is the planned road access to Ta'an Kwäch'än Council's Parcel C-16B in Whistlebend which is currently under zoning review?**

The Government of Yukon (YG) is planning to undertake road improvements in the near future to connect the Alaska Highway/Wann Road intersection to Birch Street. YG also intends to construct a frontage road from Birch Street to Azure Road which will pass in front of TKC's parcel and allow access. If TKC proceeds with the residential development ahead of YG's road improvements, TKC could extend Birch Street, to current City standards, to provide access to their development. Details of the road extension would be confirmed through a development agreement and engineering drawing approvals.
