

COUNCIL QUESTIONS & ANSWERS

Meeting date: September 26, 2022

1. Canada Winter Games

What was the source of the City's capital funding contributions for the 2007 CWG?

Prior to the 2007 Games, the major games-related City capital expenditure was construction of the Canada Games Centre. While the bulk of the funding for this project came from Federal and Territorial grants, the City's portion was funded from reserves that had been specifically built up for this purpose.

2. Whistlebend Phase 10 and 11

How far would the edge of new development (houses) be on the north side to the river?

The distance of the new development to the river ranges from 159 m to 185 m. See attached map.

What is the anticipated timing / status of the planned trail connecting Whistlebend to Downtown?

At this time, the project is being included in the draft 2023-26 capital budget, and would tentatively see design of the planned trail in 2026, as part of the Range Road North Reconstruction Project.
