

# COUNCIL QUESTIONS & ANSWERS

## Council Questions – Standing Committee June 19, 2023

### 1. New Business – Fire North of Airport Runway

*Are there any FireSmart applications or projects along the downtown escarpment area?*

Currently, there are no FireSmart applications or projects underway along the downtown escarpment area. The City is continuing to work in partnership with Yukon Government on FireSmart projects, and will be evaluating next steps for areas of concern in the city with our partners, including the escarpment and Baxter's Gulch area.

### 2. Council Donation – Whitehorse Legion, Canada Day

*What is the value of the in-kind support requested from the Legion?*

The only in-kind service requested by the Legion this year is to provide traffic control service for the Canada Day Parade. The cost of this is valued at approximately \$800.00.

### 3. Commencement Report – Zoning Bylaw Rewrite

*What are the next steps and when will the next opportunity for public and stakeholder input to the process be?*

Should Council authorize Administration to commence the procurement for the Zoning Bylaw Rewrite, the next step would be to release the Request for Proposals and award a contract. The project scope, including an engagement strategy with timelines, will form part of the successful consultant's proposal and contract.

Administration expects that the first round of engagement will be initiated shortly after project launch and will target a broad range of participants. Throughout the project, various opportunities to participate will be provided as the project progresses.
