Commercial Organics Collection	Large volume – 3 yard bin – weekly collection	310.00	per bin / per month

COMPOST SALES

ITEM FOR SALE	DESCRIPTION	FEE	UNITS
Compost - blended	1-9 cubic meters bulk blend of sand & compost	50.00	0.765m ³ (1 yard)
Compost - blended	10 + cubic meters bulk blend of sand & compost	35.00	0.765m ³ (1 yard)
Compost	Bagged compost	6.00	per 20 L bag
Compost	1-9 cubic meters bulk compost	50.00	0.765m ³ (1 yard)
Compost	10 + cubic meters bulk compost	35.00	0.765m ³ (1 yard)

Compost sales begin each year in spring. Visit www.whitehorse.ca/compost for more information on purchasing bulk and bagged products.

How to avoid unsorted load fees (\$315.00/tonne) and per item fees (\$50/item):

1. **Sort waste.** Waste must be separated into the categories below for special burial, composting, or recycling at the Waste Management Facility. **The items below will trigger unsorted fees if mixed in with other residual or controlled waste.**

- Clean corrugated cardboard
- Clean wood waste, brushing - unpainted pallets and wood without treatment, stain, paint, or glue
- Organic waste including all food waste, food scraps, food-soiled paper, leaf and yard waste
- Scrap metals including appliances without refrigerant (dishwashers, stoves, ranges, laundry machines)
- Appliances and white goods with refrigerant (fridges, freezers, air conditioners)
- Grubbing material: including roots, stumps, embedded logs and branches greater than 1.5cm in diameter
- Manure, kennel material, excreta, and fish processing material.
- Asbestos containing materials
- Animal parts and carcasses, but not slaughter waste.
- Tires

2. **Remove banned items from waste.** These items are not accepted as waste and require alternative disposal:

- Electronic and electrical waste as listed on the [Designated Materials Regulation](#), including corded and cordless items. These items may be recycled for free at Raven ReCentre – visit www.ravenrecentre.org for more information.
- Hazardous waste. Residential Household Hazardous Waste accepted Saturdays at Waste Management Facility. **Commercial hazardous waste must be brought to private disposal facility.**
- Bio-medical waste, slaughter waste, liquid waste including sewage, sludge, septic tank pumpings and sump waste
- Highly combustible and explosive material
- Radioactive waste, incinerator waste
- Waste from international air travel.
- Contaminated soil.
- Vehicles, including all-terrain vehicles and snowmobiles.

3. **Lock your bin.**

Prevent illegal dumping by locking your bin. Gravity locks allow you to secure your bin without having to unlock for the waste hauler. Ask your waste hauler to provide a lock for your bin.

For more information on properly sorting your waste, visit www.whitehorse.ca/sort or [download the What Goes Where app.](#)
