If the Wellness Centre feels they need this fence, then I approve of a fence. There are few details provided, except that the proposed height is 1.8 m. I would like to know what is the proposed setback from the sidewalk, and will the fence match the style of the existing fences there as constructed? Will there be a driveway at the West end facing Eldorado? If so, does this mean a gate in the fence?

More information with these amendments would be desirable. We are not mind readers. It is not realistic for us to wonder about things and then hope for the best.

Regards
Brian Laird

Dear Mayor Cameron and Whitehorse City Councillors:

As a resident within the community of Whistlebend at [REDACTED], I am writing to express my support for Council of Yukon First Nations to construct a 1.8 metre fence at the front setback of 10 Eldorado Drive.

The proposed fence will be constructed to match the existing fence around the building and will provide the privacy necessary to keep the residents of the Family Preservation & Wellness Centre feeling safe and secure in their temporary residence. This zoning variance will have no negative impacts on the surrounding community and will facilitate the delivery of services to vulnerable populations intended by the construction of the Family Preservation and Wellness Centre.

Sincerely,

[REDACTED]

Dear Mayor Cameron and Whitehorse City Councillors:

As a property owner and resident of the Whistlebend community at [REDACTED]
[REDACTED], I am writing to express my support for the Council of Yukon First Nations' request to construct a 1.8-metre fence within the front setback of 10 Eldorado Drive.

The proposed fence will match the existing fencing around the building and will help ensure the privacy and security of residents at the Family Preservation and Wellness Centre. This added privacy is essential for supporting individuals and families in temporary residence, helping them feel safe and protected.

Granting this zoning variance will not negatively impact the surrounding community and will support the Centre's intended purpose of delivering vital services to vulnerable populations.

Sincerely,

[REDACTED]
Maria Gray [REDACTED]
