ADMINISTRATIVE REPORT

TO: Council
FROM: Administration
DATE: March 23, 2026
RE: Authorization of 2026 AYC Resolutions

ISSUE

Submission of Resolutions to be considered by the membership at the 2026 Annual General Meeting (AGM) of the Association of Yukon Communities (AYC).

REFERENCES

- Proposed 2026 AYC Resolutions (Attachment 1)

HISTORY

The AYC annually invites communities to submit Resolutions they feel require the support of the membership at the AGM.

At the AYC AGM, submitted resolutions are reviewed by the Resolutions Committee, and debated and voted on by delegates. If adopted, AYC advocates for action with the territorial or federal government.

This year, Council has proposed that the City of Whitehorse submit six (6) resolutions to AYC related to regulation of excessive vehicle headlight brightness, Yukon adoption of the National Building Code, improving transparency through publication of Building Standards Board decisions, modernization of the property assessment framework, streamlining intergovernmental funding and contract processes, and clarifying jurisdiction between the Municipal Act and Quartz Mining Act.

ALTERNATIVES

1. Approve the Resolutions for the purposes of submitting to AYC for discussion at the upcoming AYC AGM; or
2. Do not approve the Resolutions.

ANALYSIS

Advocating for Improved Regulation of Excessive Vehicle Headlight Brightness

Advancements in vehicle lighting technology have increased concerns related to glare and nighttime visibility. Excessive headlight brightness can create safety risks for drivers, pedestrians, and cyclists, particularly during Yukon's extended winter darkness. Improved enforcement, inspection standards, and clearer national regulations could help address these concerns.

Yukon Adoption of the National Building Code

The *Yukon Building Standards Act* requires automatic adoption of updates to the National Building Code. Some changes may not fully reflect Yukon's climate, construction practices, or labour capacity. A more deliberate adoption process would allow for consultation and ensure updates are appropriate for northern construction conditions.

Improving Transparency Through Publication of Building Standards Board Decisions

Clear and consistent interpretation of building regulations is critical to public safety and efficient development. The lack of publicly accessible Building Standards Board decisions can lead to inconsistency, repeated appeals, and administrative inefficiencies. This submission calls for timely publication of Board decisions, with sufficient detail to provide clear guidance and improve transparency, consistency, and accountability across Yukon.

Modernizing Yukon's Property Assessment Framework to Promote Equity and Transparency

Property assessment is the foundation of municipal taxation and must remain fair and transparent. Changes in property values and development patterns can create concerns about equity across neighbourhoods and property classes. Reviewing the Assessment and Taxation Act could help ensure assessment practices remain balanced and reflective of current market conditions.

Streamlining Intergovernmental Funding and Contract Processes to Improve Municipal Service Delivery

Municipalities regularly enter into funding agreements with the Government of Yukon to support infrastructure and community programs. Complex administrative requirements can delay projects and increase workload for both governments. Streamlining funding processes could reduce administrative burden while maintaining accountability.

Clarifying Jurisdiction Between the Municipal Act and Quartz Mining Act

Municipalities are responsible for land use planning and zoning, while mineral rights are governed under the Quartz Mining Act. These overlapping authorities can create uncertainty when mineral activities occur within municipal boundaries. Clarifying the relationship between these legislative frameworks would support greater certainty and coordinated land use planning.

Next Steps

For the Resolutions to be accepted by AYC, they must first be supported by a Council Resolution made by the sponsoring municipality.

The proposed City of Whitehorse resolutions and supporting materials will be prepared and submitted in the required formats to the AYC once Council has considered them.

The Motion to be Considered by Council is (requires mover and seconder)

THAT Council approve Resolutions as set out in this Administrative Report for submission to the Association of Yukon Communities AGM in May 2026 for further discussion with AYC members.

PROPOSED SUBMISSION 1 - Advocating For Improved Regulation Of Excessive Vehicle Headlight Brightness

Submitting Municipality:

City of Whitehorse

Resolution Title:

Advocating For Improved Regulation of Excessive Vehicle Headlight Brightness

Whereas excessive vehicle headlight brightness and glare have become an increasing public safety concern for drivers, pedestrians, cyclists, seniors, and individuals with vision impairments;

Whereas advancements in high-intensity, LED, and adaptive lighting technologies, as well as improperly aimed or non-compliant aftermarket lighting, may contribute to reduced nighttime visibility and increased road safety risks;

Whereas regulation of vehicle manufacturing standards falls under federal jurisdiction, while vehicle operation, inspection, and enforcement involve territorial responsibility;

Whereas Yukon's long winter months and extended periods of darkness amplify the impacts of headlight glare on roadway safety;

Therefore Be It Resolved that the Association of Yukon Communities urge the Government of Yukon to review territorial vehicle inspection and enforcement frameworks to ensure vehicle lighting systems are properly aimed, compliant, and do not create undue safety risks;

Be It Further Resolved that the Association of Yukon Communities request the Government of Yukon advocate to the Government of Canada for clearer, enforceable national standards respecting vehicle headlight brightness, beam patterns, mounting height, and aftermarket lighting compliance to improve roadway safety across Canada.

PROPOSED SUBMISSION 2 – Yukon Adoption of the National Building Code

Submitting Municipality:

City of Whitehorse

Resolution Title:

Yukon Adoption of the National Building Code

Whereas the Yukon Building Standards Act (BSA) mandates the automatic adoption of amendments and replacements to the National Building Code (NBC), which can increase building costs and complexity without considering Yukon’s unique construction challenges; and

Whereas recent changes to the NBC, coupled with shortages of architects and construction professionals, have made building in Yukon more expensive and time-consuming; and

Whereas the Government of Yukon has the authority under the BSA to revise, replace, or deem certain provisions of the NBC inapplicable to Yukon, allowing for a more regionally appropriate approach.

Therefore be it resolved that the Association of Yukon Communities urge the Government of Yukon to stop the automatic adoption of all future revisions to the National Building Code until a full review of the changes is conducted and consultations are held with municipal governments, First Nations, builders, and other stakeholders.

Be It Further Resolved that the Government of Yukon consider revising, replacing, or exempting certain provisions of the National Building Code as needed to better reflect Yukon’s unique construction conditions, bringing the adoption process in line with how other provinces implement the NBC, and improving consultation, communication, and education with stakeholders.

PROPOSED SUBMISSION 3 – Improving Transparency Through Publication of Building Standards Board Decisions

Submitting Municipality:

City of Whitehorse

Resolution Title:

Improving Transparency Through Publication of Building Standards Board Decisions

Whereas clear and consistent interpretation of building regulations is essential to ensuring public safety, regulatory certainty, and efficient development processes across Yukon municipalities;

Whereas decisions of the Building Standards Board establish important precedents that guide the interpretation and application of building codes;

Whereas the absence of publicly accessible decisions can lead to inconsistent interpretation, repeated appeals, administrative inefficiencies, and increased liability exposure for municipalities and applicants;

Therefore Be It Resolved that the Association of Yukon Communities urge the Government of Yukon to publish Building Standards Board decisions in a timely and publicly accessible manner;

Be It Further Resolved that such published decisions include sufficient detail to provide clear precedent and guidance for municipalities, industry professionals, and the public, thereby improving transparency, consistency, efficiency, and accountability in the application of building regulations across the territory.

PROPOSED SUBMISSION 4 – Modernizing Yukon’s Property Assessment Framework to Promote Equity and Transparency

Submitting Municipality:

City of Whitehorse

Resolution Title:

Modernizing Yukon’s Property Assessment Framework to Promote Equity and Transparency

Whereas property assessment forms the foundation of municipal taxation and must be fair, transparent, and reflective of current market conditions to maintain public confidence;

Whereas rapid changes in property values and evolving development patterns can create perceived inequities across neighbourhoods and property classes;

Whereas municipalities rely on accurate and balanced assessments to ensure stable revenue generation and equitable tax distribution across residential, commercial, and industrial properties;

Whereas modernization of the Assessment and Taxation Act could improve clarity, transparency, and consistency in valuation methodology and appeal processes;

Therefore Be It Resolved that the Association of Yukon Communities urge the Government of Yukon to undertake a comprehensive review of the Assessment and Taxation Act to ensure assessments are equitable, balanced across property classes and neighbourhoods, and reflective of current market realities;

Be It Further Resolved that the Government of Yukon engage municipalities in the review process to modernize assessment practices, improve transparency, and strengthen public confidence in Yukon’s property taxation framework.

PROPOSED SUBMISSION 5 – Streamlining Intergovernmental Funding and Contract Processes to Improve Municipal Service Delivery

Submitting Municipality:

City of Whitehorse

Resolution Title:

Streamlining Intergovernmental Funding and Contract Processes to Improve Municipal Service Delivery

Whereas municipalities regularly enter into funding agreements and service delivery contracts with the Government of Yukon to support infrastructure, community programs, and essential municipal services;

Whereas complex approval processes, administrative requirements, and reporting obligations can delay project implementation and create administrative burden for both municipal and Government of Yukon staff;

Whereas the Government of Yukon has identified reducing administrative burden and cutting red tape as a priority in ministerial mandate letters and related commitments;

Whereas municipalities, particularly smaller communities, may have limited administrative capacity and are responsible for maintaining numerous funding agreements and associated reporting and compliance requirements;

Whereas municipalities are subject to annual independent audits and prepare financial statements in accordance with Public Sector Accounting Standards (PSAS), providing a strong framework for financial accountability and oversight;

Whereas reducing administrative requirements would allow municipal and territorial staff to focus more time and resources on delivering services while maintaining appropriate accountability and transparency;

Whereas other jurisdictions, including the Government of Canada and the Province of British Columbia in administering programs such as the Canada Community-Building Fund, utilize streamlined administrative processes and sample-based approaches to reviewing funding claims;

Therefore Be It Resolved that the Association of Yukon Communities encourage the Government of Yukon to review processes under the Financial Administration Act and related funding frameworks to simplify and standardize municipal funding agreements and service contracts;

Be It Further Resolved that the Government of Yukon work collaboratively with municipalities to reduce unnecessary administrative requirements, expedite agreement approvals, and improve the efficiency of funding administration;

Be It Further Resolved that the Government of Yukon consider adopting sample-based approaches to reviewing funding claims and reporting requirements, consistent with practices used in other jurisdictions, in order to reduce administrative burden and staff time requirements while maintaining appropriate financial accountability.

PROPOSED SUBMISSION 6 – Clarifying Jurisdiction Between the Municipal Act and Quartz Mining Act

Submitting Municipality:

City of Whitehorse

Resolution Title:

Clarifying Jurisdiction Between the Municipal Act and Quartz Mining Act

Whereas municipalities are granted planning, zoning, and land use authority under the Municipal Act to support orderly growth, infrastructure planning, and public safety within municipal boundaries;

Whereas mineral staking and exploration rights granted under the Quartz Mining Act can create jurisdictional conflicts with municipal land use planning and approved development;

Whereas overlapping legislative authorities create uncertainty for residents, developers, industry, and municipal governments;

Whereas resolving legislative conflicts would improve infrastructure protection, land use certainty, and coordinated economic development without diminishing municipal authority;

Therefore Be It Resolved that the Association of Yukon Communities urge the Government of Yukon to complete its review of the Quartz Mining Act, with one of its key focuses being to address conflicts between mineral rights and municipal planning authority;

Be It Further Resolved that the Government of Yukon work collaboratively with municipalities to ensure clear legislative alignment between the Municipal Act and Quartz Mining Act, supporting jurisdictional clarity, integrated land use planning, and balanced economic development.
